

## Surface Mining Reclamation and Enforcement, Interior

## § 784.10

(9) Location and dimensions of existing areas of spoil, waste, coal development waste, and non-coal waste disposal, dams, embankments, other impoundments, and water treatment and air pollution control facilities within the proposed permit area;

(10) Location, and depth if available, of gas and oil wells within the proposed permit area and water wells in the permit area and adjacent areas;

(b) Cross-sections, maps and plans included in a permit application as required by this section shall be prepared by, or under the direction of, and certified by a qualified, registered, professional engineer, a professional geologist, or in any State which authorizes land surveyors to prepare and certify such cross sections, maps and plans, a qualified, registered, professional, land surveyor, with assistance from experts in related fields such as landscape architecture, and shall be updated as required by the regulatory authority.

### PART 784—UNDERGROUND MINING PERMIT APPLICATIONS—MINIMUM REQUIREMENTS FOR RECLAMATION AND OPERATION PLAN

Sec.

784.1 Scope.

784.2 Objectives.

784.4 Responsibilities.

784.10 Information collection.

784.11 Operation plan: General requirements.

784.12 Operation plan: Existing structures.

784.13 Reclamation plan: General requirements.

784.14 Hydrologic information.

784.15 Reclamation plan: Land use information.

784.16 Reclamation plan: Siltation structures, impoundments, banks, dams, and embankments.

784.17 Protection of public parks and historic places.

784.18 Relocation or use of public roads.

784.19 Underground development waste.

784.20 Subsidence control plan.

784.21 Fish and wildlife information.

784.22 Geologic information.

784.23 Operator plan: Maps and plans.

784.24 Road systems.

784.25 Return of coal processing waste to abandoned underground workings.

784.26 Air pollution control plan.

784.29 Diversions.

784.30 Support facilities.

784.200 Interpretive rules related to General Performance Standards.

AUTHORITY: 16 U.S.C. 470 *et seq.*, 30 U.S.C. 1201 *et seq.*, as amended.

SOURCE: 44 FR 15366, Mar. 13, 1979, unless otherwise noted.

#### § 784.1 Scope.

This part provides the minimum requirements for the Secretary's approval of regulatory program provisions for the mining operations and reclamation plans portions of applications for permits for underground mining activities, except to the extent that different requirements for those plans are established under 30 CFR part 785.

#### § 784.2 Objectives.

The objectives of this part are to ensure that the regulatory authority is provided with comprehensive and reliable information on proposed underground mining activities, and to ensure that those activities are allowed to be conducted only in compliance with the Act, this chapter, and the regulatory program.

#### § 784.4 Responsibilities.

(a) It is the responsibility of the applicant to provide to the regulatory authority all of the information required by this part, except where specifically exempted in this part.

(b) It is the responsibility of State and Federal governmental agencies to provide information to the regulatory authority where specifically required in this part.

#### § 784.10 Information collection.

(a) The collections of information contained in Part 784 have been approved by Office of Management and Budget under 44 U.S.C. 3501 *et seq.* and assigned clearance number 1029-0039. The information will be used to meet the requirements of 30 U.S.C. 1211(b), 1251, 1257, 1258, 1266, and 1309a. The obligation to respond is required to obtain a benefit.

(b) Public reporting burden for this information is estimated to average 513

hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

[60 FR 16748, Mar. 31, 1995]

**§ 784.11 Operation plan: General requirements.**

Each application shall contain a description of the mining operations proposed to be conducted during the life of the mine within the proposed permit area, including, at a minimum, the following:

- (a) A narrative description of the type and method of coal mining procedures and proposed engineering techniques, anticipated annual and total production of coal, by tonnage, and the major equipment to be used for all aspects of those operations; and
- (b) A narrative explaining the construction, modification, use, maintenance, and removal of the following facilities (unless retention of such facility is necessary for postmining land use as specified in § 817.133):
  - (1) Dams, embankments, and other impoundments;
  - (2) Overburden and topsoil handling and storage areas and structures;
  - (3) Coal removal, handling, storage, cleaning, and transportation areas and structures;
  - (4) Spoil, coal processing waste, mine development waste, and non-coal waste removal, handling, storage, transportation, and disposal areas and structures;
  - (5) Mine facilities; and
  - (6) Water pollution control facilities.

[44 FR 15366, Mar. 13, 1979, as amended at 45 FR 51550, Aug. 4, 1980]

**§ 784.12 Operation plan: Existing structures.**

(a) Each application shall contain a description of each existing structure proposed to be used in connection with or to facilitate the surface coal mining and reclamation operation. The description shall include:

- (1) Location;
- (2) Plans of the structure which describe its current condition;

(3) Approximate dates on which construction of the existing structure was begun and completed; and

(4) A showing, including relevant monitoring data or other evidence, whether the structure meets the performance standards of subchapter K (Permanent Program Standards) of this chapter or, if the structure does not meet the performance standards of subchapter K of this chapter, a showing whether the structure meets the performance standards of subchapter B (Interim Program Standards) of this chapter.

(b) Each application shall contain a compliance plan for each existing structure proposed to be modified or reconstructed for use in connection with or to facilitate the surface coal mining and reclamation operation. The compliance plan shall include—

- (1) Design specifications for the modification or reconstruction of the structure to meet the design and performance standards of subchapter K of this chapter;
- (2) A construction schedule which shows dates for beginning and completing interim steps and final reconstruction;
- (3) Provisions for monitoring the structure during and after modification or reconstruction to ensure that the performance standards of subchapter K of this chapter are met; and
- (4) A showing that the risk of harm to the environment or to public health or safety is not significant during the period of modification or reconstruction.

**§ 784.13 Reclamation plan: General requirements.**

(a) Each application shall contain a plan for the reclamation of the lands within the proposed permit area, showing how the applicant will comply with sections 515 and 516 of the Act, subchapter K of this chapter, and the environmental protection performance standards of the regulatory program. The plan shall include, at a minimum, all information required under 30 CFR 784.13 through 784.26.

(b) Each plan shall contain the following information for the proposed permit area;
